FOCUS AREAS

EMERGENCY PUBLIC HEALTH

We help our clients as they prepare for, respond to, and recover from emergencies and disasters that have public health and medical impacts.

ENVIRONMENTAL SCIENCE AND PUBLIC HEALTH

Our experts translate scientific findings into practical applications and outreach tools that improve human and environmental health.

GLOBAL HEALTH AND CLIMATE CHANGE

We lead efforts to understand, communicate, and prepare for climate change and its related health outcomes.

OCCUPATIONAL SAFETY AND HEALTH

We promote a safe environment for all workers through research, analysis, and information sharing.

WATER

We lead collaborative efforts that protect watersheds, preserve water resources, and improve water quality.

CONTINUED ON REVERSE SIDE

OUR TEAM

Trained communication and certified meeting, project management, and public health professionals.

An extensive network of subject matter experts to meet each client's specific needs.
